Overview

Aberdeen City Council is carrying out a transport study to investigate problems and opportunities along the A92 corridor (Anderson Drive and the Parkway) between Bridge of Don and Bridge of Dee, with a particular focus on walking, wheeling, cycling and bus travel.

The main aim of this study is to identify improvement options that will encourage more people to travel sustainably for trips along the corridor (i.e. walking, cycling and using public transport), particularly for regular commuting journeys.

We want to hear from members of the public and key stakeholders to better understand views on the existing transport network along the corridor and what options should be considered to improve the sustainable transport offering.

The study will take cognisance of the opening of the Aberdeen Western Peripheral Route and the desire to 'lock in' local benefits, including opportunities for improving local connectivity, as identified in the Roads Hierarchy, agreed by ACC in 2019. Consideration will be given to options for how the A92 should function, given that it is no longer a strategic route.

The study area includes The Parkway, Persely Bridge, Haudagain Roundabout and Anderson Drive (North and South) as well as the B997 Scotstown Road / North Donside Road.

For further information click on the link at the bottom of this page.

A map showing the extents of the study can be seen below:

To facilitate this, an online map-based exercise, **PLACECHECK**, is offered where the location of specific issues/problems can be highlighted by placing a point at the location and adding the detail of the problem.

This exercise will run to **Sunday 27th February 2022.**

PLACECHECK asks you three questions:

What do we like about a place?

What do we dislike about a place?

What do we need to work on?

To let us know your views using Placecheck, please follow the instructions below:

1. Click on the 'Placecheck Exercise' link below.
2. Register (if you have not already done so previously).
3. Log in – this will make the Placecheck buttons appear.
4. Click on the button for the marker you would like to add, for example 'Add something I like'.
5. Click on the map where you want to make a comment.
6. Click on 'Save to map'.
7. In the box that opens, write the title (e.g. 'Park Gates' or 'Litter') and under 'Description' write what you want to say about it.
8. Click on 'Save'.

After completing the **PLACECHECK** exercise please return to this consultation page where you will have the opportunity to leave comments that are not location-specific but apply to the route as a whole under 'Additional Comments'.

*If you add your email address on Page 3 of this consultation, you can get a summary of your 'Additional Comments' only - a summary is not available for the **PLACECHECK** exercise.*

Alternatively you may wish to use the Aberdeen City Council email address to send your comments:

TransportStrategy@aberdeencity.gov.uk

Why your views matter

This is a great opportunity to add your views to best reflect the needs and wants of people who use the A92, and we need your help to do this.

We want to understand what you consider to be the main issues currently facing the A92 corridor as well as what you think works well, what needs improved and how you think these improvements could be made.
